PROFESSIONAL SUMMARY

Full Stack Developer and Software Engineer based in Abu Dhabi, UAE with 5+ years of experience building fast, scalable web applications with Next.js (App Router), React, TypeScript, Node.js, PostgreSQL, Supabase and AWS. Specialised in e-commerce, travel and booking platforms, integrating Shopify, Stripe, NetSuite, UPS, FedEx, WhatsApp Business and Google Maps APIs. Experienced in AI/LLM integration with the OpenAI API for structured data extraction and automated quote generation. Delivered 100+ booking websites across the UK and Europe and multiple travel portals for the UAE market.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router, Server Components, Server Actions), Redux, Vite, Tailwind CSS, Material UI, SASS, Framer Motion, Recharts

Backend: Node.js, Express.js, MERN Stack, PHP, REST APIs, GraphQL, Zod, JWT, OAuth, Keycloak, SSR, PDFKit, Nodemailer, IMAP/SMTP

Databases: PostgreSQL (Row-Level Security, multi-tenant design), Supabase (Postgres, Auth, Storage), MySQL, MongoDB, DynamoDB, Prisma

Cloud & DevOps: AWS (Lambda, API Gateway, Step Functions, EventBridge, S3, CloudFront, CloudWatch, RDS, Aurora, CodePipeline), Docker, CI/CD, Vercel, Netlify, Firebase

AI & LLM: OpenAI API, JSON-schema structured outputs, document and image data extraction

E-commerce & Integrations: Shopify Storefront API, Stripe (Payments, Webhooks), Apple Pay, Google Pay, NetSuite, WhatsApp Business API, Google Maps & Places API, UPS, FedEx, 3PL

SEO & Tools: Technical SEO, Schema.org, Open Graph, XML sitemaps, Google Analytics, Tag Manager, Jest, React Testing Library, Git, Jira, Figma, Agile

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer **09/2026 – Present**

Global Web Solutions | Abu Dhabi, UAE

- Built full-stack applications with Next.js App Router, Server Components and Server Actions for type-safe client-server data flow, with responsive, accessible UIs in Tailwind CSS.
- Developed e-commerce and tour booking platforms with the Shopify Storefront API, Redux and multi-currency checkout, plus UAE portals for flights, visas, desert safaris, luxury car hire and cargo.
- Delivered 100+ transportation booking websites across the UK and Europe on a centralised multi-country React, Next.js and PHP architecture.
- Designed multi-tenant PostgreSQL schemas with Row-Level Security (RLS) for data isolation and role-based access, using Supabase (Postgres, Auth, Storage) and serverless Postgres functions.
- Integrated the OpenAI API with JSON-schema-constrained responses to extract structured data from documents, images and free text, and to automate pricing and quote generation.
- Implemented Stripe webhooks for real-time payment reconciliation and automated invoicing, generated PDF quotes and invoices with PDFKit, and validated API boundaries with Zod.
- Automated customer communication with WhatsApp Business API templates, IMAP email intake and SMTP/Nodemailer delivery; used Google Maps API for geocoding and route calculations.
- Built Recharts dashboards and implemented technical SEO: structured data, Open Graph, XML sitemaps, Google Analytics and Tag Manager.

Software Engineer – KORE Digital E-commerce **10/2022 – 07/2025**

Gadgeon Systems Inc | Kochi, India

- Built responsive e-commerce storefronts and reusable component libraries with React, Next.js, Vite and Redux.
- Designed serverless AWS backends (Lambda, API Gateway, DynamoDB, RDS) and automated order workflows with Step Functions and EventBridge.

- Integrated Stripe and Shopify for payments, UPS, FedEx and 3PL for automated shipping, and NetSuite for orders, invoicing and finance.
- Wrote unit and component tests with Jest and React Testing Library in an Agile team using Jira and GitLab.

Software Engineer – Full Stack **03/2022 – 09/2022**
Techzera Infologies Pvt Ltd | Malappuram, India

- Built Node.js and Express.js REST APIs for e-commerce applications and React admin dashboards with seamless API integration.

SELECTED PROJECTS

SaaS & CRM

- **SiteSelo** – Website builder platform for local businesses such as restaurants, salons and clinics
- **Selo Assist** – AI chat assistant for business websites with lead capture and human handover
- **Global Transport CRM** – CRM for managing transport bookings and operations
- **Human Resource CRM** – HR management system for employee records and workflows

Travel & Booking (UAE)

- **Excursions Dubai** – Tour and activity booking platform
- **Safaris UAE** – Desert safari booking
- **Compare Flights AE** – Flight search and booking
